

SmartBolts®

Visual Indication System

Know at a glance that critical joints are fastened securely.

Incredibly advanced. Surprisingly simple. Our patented Visual Indication System™ is a technology that associates change in force with change in color.

FLSMIDTH

FLSmidth provides mission-critical equipment, such as ore stacking conveyors, for the world's largest mining operations. These mobile stacking conveyors are often in use 24 hours a day, seven days a week, in extremely rugged environments.

SmartBolts® ensure that FLSmidth's mission-critical equipment maintains uptime *and* structural integrity. An advanced Visual Indication System™ reduces maintenance and inspection costs, and improves site safety. It's no wonder SmartBolts® are relied on to secure the mining industry's most critical bolted joints.
